THE PRISONER

Who escapes from jail is by no means free. He is under the law and punishment is written over against his name. Soon or late he will be caught again and bear added punishment for his short escape from his cell.

Those who by the use of palliative powders and tablets escape for a time from the sufferings of dyspepsia are in the same condition as the escaped prisoner. Soon or late they will go back to the old condition and pay an added penalty for temporary release.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and organs of digestion and nutrition. Its cures are lasting.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Bedford, of 13, Eastern Avenue, Boston. "I tried a number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food on my stomach for a long time. I was compelled to live on liquids, to sleep and follow my occupation (mining). Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I decided to continue it. I have taken the tablets and am convinced it is the only case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets stimulate the liver.

KINGSVILLE.

A letter from the authorities at Lakeland, to which asylum S. G. Blankenship was recently committed, informs his family here that he is very much worse physically and if they would be with him during his last days to bring him home. Dr. C. M. Thompson left on the fast train Monday to accompany him home and they arrived Tuesday night. Great sympathy is felt for the stricken family.

One of the most solemn baptisms occurred Sunday afternoon when Denny Horton, who was converted last summer, was immersed by Rev. Davidson, of the Baptist church. Mr. Davidson said he had baptized a great many people, some of whom were very aged and others who had only a few days to live, but he had never experienced anything more affecting than the baptism, which occurred Sunday. The young man, who is about 21, was born deformed, most terribly. He is almost helpless, but has a bright smile and cheerful expression and seems very happy since his conversion. It is said that there was scarcely a dry eye among the many witnesses to the affecting scene. Mr. Davidson spoke of the many who were strong and able to do so much for Christ rejecting him while this poor boy was willing to do all he could by accepting the Savior.

Born, to Rev. and Mrs. W. H. Thompson, Monday evening, a daughter, Mrs. Padgett, of Eubanks, is the guest of Mrs. Williams. Mrs. A. P. Dunn and baby and Miss Alma Reynolds, of Stanford, came over Sunday for a brief visit to relatives and friends. Jessie Walter, of your city, was here Saturday. Wallace Walter brought his brother, G. A. Walter, over from Stanford Sunday afternoon. Edgar Rigney, G. A. Walter's young clerk, made his first trip to Cincinnati Sunday. D. B. Flint went to Cincinnati Sunday on the excursion. Lon Rigney, of McKinney, was here Saturday. Mrs. Galnes, of McKinney, after a visit to her daughter, Mrs. George Rigney, has returned home. Mrs. Kenton Singleton has returned from a visit to relatives near Waynesburg. J. K. Carson and little son, of McKinney, were here recently. Steve Reynolds, of the C. S., was here Sunday. Mrs. B. G. Allen, of Somerset, returned home Sunday, taking her mother with her to show her how a bride can keep house. Miss Elizabeth McFarland, Mrs. B. C. Pennybacker's pretty and attractive niece of Knoxville, is expected soon for an extended visit, which is a pleasant anticipation, for her sweet and merry disposition have won her many friends here.

Oil what does a bad taste in your mouth remind you? It indicates that your stomach is in bad condition and will remind you that there is nothing so good for such a disorder as Chamberlain's Stomach and Liver Tablets after having once used them. They cleanse and invigorate the stomach and regulate the bowels. For sale at 25c per box by Craig & Hocker, druggists.

A combination of the shipbuilding interests of the United States is reported to have been perfected. The Trust Company of the Republic, New York City, is financing the scheme and Lewis Nixon is one of the promoters.

Under an act passed by the General Assembly at the recent session, no State bank organized prior to 1893 will pay any State tax this year. The general revenue fund will thus be reduced about \$80,000. Next year, these banks will pay only about one-fourth of the taxes assessed against them, which will reduce the State revenue about \$60,000.

The court of appeals, Judge Guffey writing the opinion, held to be constitutional the law authorizing the State Board of Valuation and Assessment to certify the franchise valuation of railroads to the collecting officers of counties, cities, towns and taxing districts for local taxation. This will mean a distribution of more than \$50,000,000 over the State on a retrospective assessment to and including 1890. It practically doubles this class of taxes.

IN PRAISE OF CRAB ORCHARD SPRINGS.

I am so impressed with the comfort of this celebrated old watering place that I feel I'm doing persons in search of health or pleasure a favor to tell them of it. I have been coming here many years and have never known the entertainment more comfortable or the water more beneficial than this season. The good Lord furnishes the water and the host and hostess, Mr. and Mrs. J. B. Willis, do the balance. Mr. Willis knows how to make you feel good by feeling good himself, and Mrs. Willis is par-excellence in her special department, which you will find true, if you will try her table, which can not be criticized; and the clean, delightful rooms, where there is no room for insomia. Don't take my word, but come and see for yourself.

—VISITOR.

CHOLERA MORBUS A DANGEROUS DISEASE.

In many instances attacks of cholera morbus terminate fatally before medicine can be procured or a physician summoned. The safe way is to keep at hand a reliable medicine for use in such cases. For this purpose there is nothing so safe as Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Neuralgic pains, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone, and being absorbed into the blood, its healing properties are conveyed to every part of the body and effect some wonderful cures.

For this purpose there is nothing so safe as Chamberlain's Colic, Cholera and Diarrhoea Remedy.

MISS IDA MAY ADAMS.

Who represents Mr. Vernon in the elocutionary contest to be given at Walton's Opera House on Wednesday evening, June 13, by Managers Saufley & Alverson, is no stranger to Stanford audiences, having won many admirers here in previous contests. Her subject is, "Breaking Through the Lines," and she is said to be a perfect mistress of it. Miss Adams has friends here and elsewhere who think she should win first prize and they are counting on her doing so. She is related to the Baughmans and other influential Lincoln county families who will be present to see her do honor to herself and her town.

The American Bible Society issued last year 1,500,000 Bibles and the British Society 5,000,000. Add those issued by other publishing houses and we have a total of 10,000,000. Most of these are in foreign languages, designed for the use of missionaries, but the number sold to individual purchasers in England and the United States is enormous. Evidently the people in large numbers of them are searching the Scriptures and discovering that between its covers can be found the loftiest poetry, the profoundest philosophy, the most practical wisdom and the sublimest vision.

The "Big Three" of the railroad committee, who arrogated to themselves, at the dictation of interested parties, to order a convention to nominate a candidate for railroad commissioner a year or two before the election, are laying very low since Ben H. Lingo's lame defense of its action. Perhaps, like the ostrich, they have stuck their heads in the sand and think they are hid, but the people are after them and do not intend to give up the chase till they call off their snap convention. Let them act now or they will forever remain in contempt.—Lexington Democrat

HOW TO AVOID TROUBLE.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by Craig & Hocker, druggists.

The tuberculosis Congress made the startling statement that one seventh of the world's death every year are due to that disease. The efforts made to lessen the ravages of this dreadful malady are successful only so far as the preventative measures are lessening the growth and spread of the disease.

TAX ON BABIES.

Extreme hot weather is a great tax upon the digestive powers of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. 25c at Penny's Drug Store.

No little of the restlessness and disorder in the labor world to-day is directly due to the tremendous development of the trust system. The recent efforts to float enormous capitalization of the various combinations, with the consequent discussion of the question of earnings, profits and values, has attracted the attention of the world. When working men see it authoritatively stated that "these high capitalizations are based on the profit producing ability of the plants, not their actual values," it begins to seem to the working men that somehow they ought to have a larger share in those profits. It is really no wonder they are restless and feel they should have a bigger slice of the enormous profits they seem to be helping to create. The trusts are supplying the working men alike with an irritant and with ammunition for opposition.

EX-GOV. BRADLEY is talking thro' his bat again. He says he could easily win in the race for governor and that he would have no trouble in carrying Louisville by 15,000, but he couldn't be induced to enter the gubernatorial race. Those of us who know the general ex-governor and also know his weakness for talking don't give his vain boasting a second thought, but for the benefit of those not so well acquainted with him, we will state that he is "jess' foolin'." Neither he nor any other republican will ever be able to carry old Kentucky again and nobody knows it better than the gentleman who is talking to bear himself talk.

CONGRESS may pass laws designed to protect the president from assassination, but history shows that the assassin who is willing to sacrifice his own life in order to kill some one else can not be guarded against. In the short history of our own country we have had three such instances. Few people will believe that either Booth, Guitreau or Czolgoez could have been deterred from their murderous purpose by any law that could have been enacted. The law can punish such crimes, but it can not prevent them.

WE learn that Judge Thomas Z. Morrow, of Somerset, will be a candidate for re-election as circuit judge and as no democrat has a ghost of a show in his district we sincerely hope he will be honored again. An able lawyer, a fine judge of law, a polished and genial gentleman, Judge Morrow's friends all over the State think he is timber for something higher, but until we see him again we will not be sure.

UTAH was admitted into the union on January 4, 1896 and in the election succeeding cast 64,000 democratic and 13,000 republican votes. Four years later the vote of Utah was, democratic 45,000 and republican 47,000, a remarkable change in the politics of a new State and evidence of the futility of figuring in advance on the prospects of party majorities in new States.

THE white men of Decatur, Ind., which is North of the Ohio river, mind you, have banded together to drive every Negro out of the town. Such lawlessness may be directly traceable to Gov. Durbin's disregard for the law and the oath he has taken in making the State a bane for assassins and conspirators in assassination.

THE new Pullman sleepers designed to afford more ample toilet facilities to women will be a great boon to the traveling public. The need of some sort of arrangement to make it possible for one woman to keep 12 other women out of a toilet room in a Pullman for one hour or more, has been urgent for some time.

THE fellow who saw a sign over a lot of umbrellas in Louisville, reading "Take one," took one and got five years in the penitentiary. It won't always do to take things too liberally.

The Senate passed the Naval bill. It provides for the construction of two battleships, two cruisers and two gun boats. The House provision that one of each shall be built at government yards was stricken out. The House adopted a special order for the construction of the Pacific Cable Bill.

A new member of "the most august deliberative body in the world" is popularly supposed to serve a long novitiate of silent attention, but according to the tab the New York Sun claims to have kept him, Mr. Patterson, of Colorado, has addressed the Senate 738 times since he entered the chamber last December.—*Lou. The democratic State convention of Arkansas, unanimously renominated Gov. Jefferson Davis for governor. In accepting the nomination Gov. Davis sprung a sensation by announcing himself a candidate to succeed Senator Berry. Former Gov. James P. Clark was declared the party's nominee to succeed Senator James K. Jones.

The platform recognizes the Kansas City platform as the declaration of National democracy until supplanted by the action of a succeeding National convention.

The foreman was yelling for copy.

With terrible cold in his head,

And eyelids heavy and sore,

An editor sat in his broken chair

And bitterly, earnestly swore.

A youth had dropped in with a poem,

A man was there with a dun,

And a chap had dropped in to tell him

How the paper ought to be run.

An irate subscriber had told him

His sheet wasn't fit to be read,

While another carefully promises

He will punch the editor's head.

The foreman was yelling for copy,

And the wind whistled in at the door

And this, with a few other reasons,

Is why the editor swore.

But the angel that took it to Heaven

Recorded his verdict there;

"The jury finds in the present case

"Twas a justifiable swear."
